SUMMARY

A senior software engineer with 5+ years of professional experience in web and mobile app development. A dedicated developer who focuses on interactive website development using modern JavaScript & TypeScript technologies such as React/Next.js, React Native and Node JS, and highly proficient in teamwork. Looking to decorate my career by working on a challenging and interesting project in the next role.

SKILL HIGHLIGHTS

- HTML/CSS (6 years)
- JavaScript (6 years)
- TypeScript (4 years)
- React (5 years)
- Next.js (3 years)
- React Native (5 years)
- Functional Programming (4 years)
- Firebase (6 years)
- Node.js (5 years)

- Recoil, Redux (3 years)
- MongoDB (3 years)
- REST APIs (5 years)
- GraphQL (2 years)
- AWS (2 years)
- Git/GitHub (6 years)
- Jira/Jenkins (2 years)
- Material UI, Bootstrap (5 years)
- Hooks (4 years)

EDUCATION

Master's degree in Software Engineering

NED University of Engineering and Technologies, 2023 - Present

EXPERIENCE

Senior Full Stack Engineer
Code Shock, LLC, Albuquerque, New Mexico - 03/2021 – 09/2023

- Built a SAAS Product sendmea.io that collects video reviews for your business or personal name using React JS and Firebase.
- Developed core functionalities of client's web platforms using Next.js, React.js, TypeScript, Material UI, Node.js, Mongo DB, Firebase.
- Worked directly with the design team to implement pixel-perfect responsive pages.
- Built reusable components and responsive pages using TypeScript, Next.js and React Hooks.
- Developed a cross-platform mobile application named CanYou (available on app store and playstore) for task management using React Native and Firebase and styled with Native Base.
- Created the Andymation mobile application for Andy's flipbook, using React Native, Firebase, Recoil, React Hook Form, ES6 Funtional Programming and styled it with the React Native Elements library.
- Developed and Maintained Node.js Backend for Screen Indie with AWS services.

Senior Frontend Engineer
Nodis.io, INC, Toronto, Canada - 03/2022 – 03/2023

- Created multiple cross-platform, mobile-compatible screens using React Native, styled with CSS, and enhanced functionality with Javascript and state management using Redux-Toolkit
- Developed reusable components and crafted responsive user interfaces for a prominent app in React Native. Implemented automation testing using tools like Jest to ensure the quality and reliability of the application.
- Served as a mentor to junior developers, providing guidance on frontend development best practices specific to React Native. This led to a 30% reduction in code review cycles and a 20% improvement in code quality.
- Actively supported team members by addressing and resolving issues during engineering meetings, fostering progress and collaboration among the development team.
- Enhanced existing features, refactored code, and optimized performance using React Native, resulting in smoother app operations and increased user engagement.

Senior Full Stack Engineer
House of Techies, LTD, UK - 02/2020 – 06/2021

- Delivered responsive, cross-browser compatible and accessibility compliant websites, achieving 30% faster load time than industry average using React and Redux.
- Implemented secure authentication and authorization using Passport.js and JWTs in Node.js, with React and React Native frontends.
- Implemented SSR and SSG on Single Page Applications to increase SEO and initial page loading speed using Next.js.
- Attended weekly sprint meetings & daily standups, had peer code reviews and mentored 4 juniors to improve code quality and follow best practices.
- Built a financial auditing system including Stripe payment using React.js, Express, and REST APIs.
- Utilized Ant Design library to create visually appealing and responsive user interfaces, resulting in a 25% increase in user satisfaction ratings.
- Developed and maintained features for the backend services of the company with Agile methodologies.
